URADNO CERTIFICIRANJE VLADNE SLUŽBE ZA ČEBELE ALI URADNEGA VETERINARJA DRŽAVE POREKLA /
OFFICIAL CERTIFICATION OF THE GOVERNMENT APIARY OFFICER OR GOVERNMENT VETERINARY
OFFICER OF THE COUNTRY OF ORIGIN

Jaz, (ime) / I, (name)iz /of
.....
(mesto in pokrajina/provinca) / (town and state/province)

sem v rednem delovnem razmerju kot uslužbenec **Vladne služne za čebele / **Uradni veterinar, pristojen za certificiranje proizvodov čebelarstva in s tem certificiram, da glede v izjavi lastnika navedenih čebel (*Apis mellifera*):
/ am a full-time **Government Apiary Officer / **Government Veterinary Officer whose duties relate to apiculture and hereby certify in relation to the honey-bees (*Apis mellifera*) described in the owner's declaration, that:

1. po uradni poizvedbi ni razloga za dvom o resničnosti izjave lastnika (Dodatek 1) / after due enquiry I have no reason to doubt the Owner's Declaration (Appendix 1)
2. matice in spremljajoče delavke izvirajo iz čebelnjaka, ki je registriran in pod rednim veterinarskim nadzorom / the queen bees and escorts originated from an apiary subject to government registration and periodic government inspection
3. ** (država porekla) / ** (country of origin) je država porekla čebel v izvozni pošiljki in je prosta naslednjih parazitskih pršic medonosnih čebel: / is the country of origin of bees in the export consignment and is free of the following parasitic mites of honey bees:
Varoza (*Varroa* spp.) / Varroa mite (*Varroa* spp.)
Pršica *Tropilaelaps* (*Tropilaelaps* spp.) / *Tropilaelaps* mite (*Tropilaelaps* spp.)
Pršičavost čebel (*Acarapis woodi*) / Tracheal mite (*Acarapis woodi*)
(OPOMBA : črtaj točko 3 kot ustreza) / (NOTE: Delete Item 3 if it does not apply)
4. v zadnjih enaindvajsetih (21) dneh sem panj(e), ki pripada(jo):- / within twenty-one (21) days of export, the hive(s) belonging to:-
Ime lastnika: / Owners Name:
Na lokaciji: / and located at:
Naslov: / Address:
Država porekla: / Country of Origin:
iz katerih bodo izvirale čebele, namenjene izvozu v Avstralijo pregledal in ugotovil da je/so prost(i) vidnih znakov sledečih bolezni (vključno infestacije s paraziti), ki prizadanejo medonosne čebele: / from which bees for export to Australia will be sourced, was/were inspected by me and was/were found to be free of visible evidence of the following diseases (including parasitic infestation) affecting honey-bees:
Huda gniloba čebelje zalege (*Bacillus larvae*) / American foul brood (*Bacillus larvae*)
Blaga gniloba čebelje zalege (*Melissococcus pluton*) / European foul brood (*Melissococcus pluton*)
Zunanja pršičavost čebel (*Acarapis externus*, *A. dorsalis*, *A. vagans*) / External acariasis (*Acarapis externus*, *A. dorsalis*, *A. vagans*)

Pršičavost čebel (*Acarapis woodi*) / Tracheal mite (*Acarapis woodi*)

Varoza (*Varroa* spp.) / Varroa mite (*Varroa* spp.)

Pršica *Tropilaelaps* (*Tropilaelaps* spp.) / *Tropilaelaps* mite (*Tropilaelaps* spp.)

Ušivost čebel (*Braula* spp) / Bee Lice (*Braula* spp)

5. Potrjujem, da je(so) panj(i) ali zarodni panj(i), iz katerega(ih) bodo izvožene čebele bil(i) tretiran(i) z uradno odobrenim sredstvom za zatiranje pršic pri čebelah: / I confirmed that the hive(s) or nucleus hive(s) in which the bees to be exported have been housed was/were undergoing treatment with a product of proven efficacy for the control of parasitic bee mites:

Ime proizvoda: / Product Name:

Proizvajalec: / Manufacturer:

(**OPOMBA**: črtaj točko 5 če je država prosta pršičavosti čebel, varoze in pršice *Tropilaelaps*) / (**NOTE**: Delete Item 5 if country is free from Tracheal mite Varroa mite and *Tropilaelaps* mite)

6. (i)** afriški sev čebele (*Apis mellifera scutellata*) se ne pojavlja v: / ** the African strain of bee (*Apis mellifera scutellata*) is not known to occur in:

.....

(država porekla) / (country of origin)

in vizualni pregled naključnega vzorca v čebelnjaku porekla ni nakazal prisotnosti vedenjskih ali anatomskih značilnosti afriških sevov medonosne čebele ali njenih hibridov / and a visual inspection of random samples within the apiary of origin has not indicated the presence of behavioural or anatomical evidence of the African strain of honey bee or its hybrids

ALI / OR

(ii)** afriški sev čebele (*Apis mellifera scutellata*) se pojavlja v: / ** the African strain of bee (*Apis mellifera scutellata*) is known to occur in:

.....

(država porekla) / (country of origin)

toda ni znano, da bi se pojavil v: / but is not known to occur in:

.....

(pokrajini/provinci/teritoriju) / (state/province/territory)

iz kjer bodo čebele izvožene. / from which the bees are being exported.

Vizualni pregled naključnega vzorca v čebelnjaku porekla ni nakazal prisotnosti vedenjskih ali anatomskih značilnosti afriških sevov medonosne čebele ali njenih hibridov. / A visual inspection of random samples within the apiary of origin has not indicated the presence of behavioural or anatomical evidence of the African strain of honey bee or its hybrids.
